2	<p>Complete the following text with the words given.</p> <div style="border: 1px solid black; padding: 5px; margin: 10px 0;"> combinations _ natural _ understanding _speakers </div> <p>Collocation is the way words work together to sound32... in a particular context. For example we might say "The typhoon brought heavy rain and strong winds", but we wouldn't say that is brought "strong rain" or "heavy winds" because those33.....do not collocate. Using wrong collocations may not prevent people from34..... Your text but it doesn't sound right to native35..... .</p>		
2	<p>Read the following passage and answer the questions.</p> <p>Some people think that showing respect is somehow dishonorable. They feel that weak people show respect to the strong and powerful just because they are weak. This is a complete misunderstanding. It does not show weakness to see the value in others. It shows extra strength.</p> <p>It is also important to remember that respect is interchangeable. When you respect someone you will recognize the value in them. You will treat them in such a way that tells them you find them valuable. The natural response on their behalf (from them) is to respect you in return. They will feel that this person really does add value to my life. They will view you as very valuable to them and they will develop a deep respect for you.</p> <p>36-The word “this person” in second paragraph refers to</p> <p>a. someone b. you c. an old person d. a respectful man</p> <p>37-When you have respect for others, It means that</p> <p>a. you are weak b. you are less important than them c. they are more valuable than you d. you have understood their value</p> <p>38- Attack the word "interchangeable "and write one word that is related to it.</p> <p>39-If we think that respecting shows weakness, we didn't understand the issue correctly.</p> <p>True ☐ False ☐</p>

Dehkhoda Dictionary is the largest comprehensive Persian dictionary ever published, **comprising** 16 volumes (more than 27000 pages).

This dictionary is the conclusion of Dehkhoda,s attempt during forty years. This book contains different words with their meanings and also historical and geographical information. More than thousands of Turkish, Arabic, Indian, French, German, English, Russian words which are used in Persian language are found in this book. Persian grammar is another advantage of this book which has been described completely.

Although it covers a big part of literary terms and words in Persian, the first edition of it lacks most scientific and technology terms. However the new editions cover them. Many of these words were added in new editions published after Dehkhoda,s death.
