2	<p>متن را خوانده و به سوالات پاسخ دهید.</p> <p>A dictionary is a book which explains the meanings of words and expressions. You can find words easily because dictionaries put them in alphabetical order. The word 'dictionary' comes from the Latin 'dictio'('saying').</p> <p>There are several types of dictionaries. Dictionaries which explain words and how they are used; dictionaries which translate words from one language to another; dictionaries of biography which tell about famous people; and technical dictionaries which explain the meanings of technical words. Dictionaries which explain what words mean give a clear 'definition' of them. A good dictionary also gives more information about words. For instance, it explains how they are pronounced. Usually the International Phonetic Alphabet (IPA) is used for this purpose.</p> <p>Finding a word in the dictionary is not easy. True False</p> <p>Biography dictionaries are about everyone. True False</p> <p>What does a good dictionary do?</p> <p>What is the origin of the word 'dictionary'?</p>	13
