Tomas Alva Edison lit up the world with his invention of the electric light. Without him the world might still be a dark place. However, the electric light was not his only invention. He also invented over 1200 other things. About every two weeks he created something new.

Tomas Edison was totally deaf in one ear and couldn't hear well by the other, but he thought of his deafness as a blessing in many ways. It keeps conversation short, so that he could have more time for work. He called himself a "two-shift" man because he worked 16 out of 24 hours. Sometimes he worked so intensely that his wife had to remind him to sleep and eat.

Tomas died at the age of 84 in New Jersey. He left numerous inventions that improved the quality of life all over the world.
