A dictionary is a book which explains the meanings of words and expressions. You can find words easily because dictionaries put them in alphabetical order. There are several types of dictionaries: dictionaries which translate words from one language to another; dictionaries of biography that tell about famous people; and technical dictionaries which explain the meanings of technical words. On the other hand, picture dictionaries are often recognized by topic instead of using an alphabetical order of words.

37. What is a dictionary?

38. How many types of dictionaries are there?

39. Biographical dictionaries translate words from one language to another.
