Part V: Reading Comprehension

Read the passage carefully and then answer the following questions. (each 0.5 point)

There is a famous expression in English: “Stop the world, I want to get off!” this expression refers to a feeling of panic, or stress, that makes a person want to stop whatever they are doing, try to relax, and become calm again. “Stress” means pressure or tension. Too much stress results in physical, emotional, and mental health problems.

There are numerous physical effects of stress. Stress can affect the heart. It can increase the pulse rate and can cause high blood pressure. Stress can affect the respiratory system. It can lead to asthma. It can cause a person to breathe too fast, resulting in a loss of important carbon dioxide. Stress can affect the stomach. It can cause stomach aches and food digesting problems.

Emotions are also easily affected by stress. People suffering from stress often feel anxious. They may have panic attacks. They may feel tired all the time. Long-term stress can lead to a variety of serious mental illnesses. Depression, an extreme feeling of sadness and hopelessness, can be the result of continued and increasing stress.

It is obvious that stress is a serious problem affecting our health and well-being. So, reduce stress: stop the world and rest for a while.

37. The author refers to the expression “Stop the world, I want to get off” in order to mention people who
