| O    | <p><b>B. Read the following passage and then choose the best answer. (one is extra)</b></p> <p><b>instance - other - another - definition – purpose</b></p> <p>Dictionaries which explain what words mean give a clear ‘.....۳۷.....’ of them.</p> <p>A good dictionary also gives more information about words. For ...۳۸...., it explains how they are pronounced. Usually the International Phonetic Alphabet (IPA) is used for this .....۳۹..... .</p> <p>There are also dictionaries which translate words into other languages. Very often one volume translates both ways; for example, half of the book is from English to Persian and the .....۴۰..... half from Persian to English</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      | ۲    |
| P    | <p><b>READING:</b></p> <p><b>Read the text and answer the questions.</b></p> <p>For many years people have been trying to create a simple universal language that Would serve all over the world as a common means of communication .In the last three hundred years, More than seven hundred such languages have been suggested . The most successful and the most popular of these is a language called Esperanto . It was invented by Ludwig Zamenhof , who lived on Poland .When he was growing ,he saw that people from different backgrounds who lived in Poland had lots of difficulties communicating with each other. This often led to disagreements. Ludwig felt that a common language would help the understand each other better and agree with each other .So he began working on a common international language .He started his work while he was still at school !In ۱۸۸۷, he published some information about his new language .</p> <p>He didn't use his real name. He used the name Dr. Esperanto (which means "one who hopes ").Soon people from all over the world became interested in his language, called Esperanto. Today Esperanto is spoken by eight million people throughout the world. Many governments and international organizations recognize it in many ways. Esperanto is often used on radio broadcasts form official government stations.</p> | ۴    |
